Waterbury Center, VT ... Moxie Productions is pleased to present the Vermont Premiere of the award-winning solo play, HEDY! The Life & Inventions of Hedy Lamarr, written and performed by Heather Massie as part of The 2017 One & Only Series. Presented on Friday, March 24 @ 7:30PM; Saturday, March 25 @ 7:30PM; and Sunday, March 26 @ 2:00PM at the Grange Hall Cultural Center, 317 Howard Avenue, Waterbury Center, VT 05677.

The 2017 One & Only Series celebrates the power of solo theater. HEDY! The Life & Inventions of Hedy Lamarr was developed in the Artist-in-Residence program of the Grange Hall Cultural Center in 2016. Ms. Massie was the center's first Artist-in-Residence.

Hedy Lamarr, glamorous siren of the silver screen, was more than the most beautiful woman in the world. She invented frequency hopping and spread spectrum technology that make the world of wireless communication tick. From Austria to Hollywood, WWII, torpedoes, ecstasy, and intrigue to the very cell phone in your pocket, she was there!

Heather Massie was honored as the **2016 Outstanding Actress in a Staged Reading** at the **Planet Connections Theatre Festivity** in **New York City** for **HEDY! The Life & Inventions of Hedy Lamarr**. The World Premiere was presented on Hedy Lamarr's 102nd birthday in the **United Solo Festival** in **New York City**, and was named a **2016 Festival Bestseller**. Ms. Massie was awarded as **Best Actress** in the **2017 SaraSolo Festival** in Sarasota, FL.

HEDY! The Life & Inventions of Hedy Lamarr explores the life, inventions and person of Hedy Lamarr, Viennese-born Hollywood film star of the 1930s-1950s. Known as **The Most Beautiful Woman in the World**, Hedy Lamarr stored away knowledge of munitions while married to Austrian arms dealer, Fritz Mandl. She employed this knowledge to support the US Navy's war effort during WWII by inventing **The Secret Communication System** with composer George Antheil, to make torpedoes more accurate. Also referred to as **Frequency Hopping** or **Spread Spectrum Technology**, her invention is used today in cell phones, WiFi, CDMA, GPS, Bluetooth and a myriad of other wireless systems.

HEDY! The Life & Inventions of Hedy Lamarr has appeal for all audiences, with special interest for Austrian, Jewish, Film, History, Scientific, Wireless Communication, Military, Theatre, and LGBTQ Communities, as well as Teenagers, Adults, and Retirees. It will be presented in **DivaFest 2017** in Indianapolis, March 17-19; in the **2017 Shenandoah Fringe** in Staunton, VA on April 9-10; in the **Planet Connections Theatre Festivity** in NYC between June 12 and July 3; and at **Gamut Classic Theatre** in Harrisburg, PA July 7-9. Plans are underway for production in International Festivals, Regional Theatres, Universities, Museums, Libraries, Schools, and Cultural Organizations. This project is recommended and supported in part by the **Austrian Cultural Forum New York**.

Heather Massie will star as Hedy Lamarr (*Greyhounds* and *Reflections of a Heart* – **Theatre Row**; *Martin: A New American Musical* by **Leslie Lee & Charles Strouse** – Negro Ensemble Company; developmental readings of *Legends*, and *Apples & Oranges* by Leslie Lee – **Signature Theatre**; *The Book of Lambert* and *Mina*, both by Leslie Lee - **LaMaMa**). Having studied **Astrophysics** with dreams of becoming an astronaut, **Heather Massie** marries her loves of art and science in the person of Hedy Lamarr. She brings Hedy to life while interacting with the audience, and unearths the truth behind how such a glamorous actress could create an invention that is so ubiquitous today.

The production features artistic consultation by **Blake Walton** and **Leslie Burby**, costume design by **Cat Fisher**, projections by **Jim Marlowe & Charles Marlowe**, sound design by **Jacob Subotnick**, dialects by **Page Clements**, and technical assistance by **Dan Leary**.

TICKETS are \$15. Reservations by email grangehalcc@gmail.com or phone (802)224-4168.

Heather Massie (Writer / Solo Performer) is a NYC Actor and Writer. Originally from Virginia, Ms. Massie has always been fascinated by the sciences, especially Astronomy.
